

<b>Job Description</b>	Web Developer
<b>Reports To</b>	Andy Redfern - Director
<b>Salary</b>	Consistent with experience
<b>Hours</b>	37.5 hours per week
<b>Terms</b>	Full-time post

We are looking for a Web Developer to join our existing development team. The ideal candidate is someone who loves coding, always wants to find a smarter way of working and is experienced in all aspects of server and client side development.

The job holder is responsible for contributing to the following tasks:

- the implementation of web and email design layouts provided by web designers
- developing HTML, Javascript and DHTML coded pages
- developing server-side pages predominantly using Apache, MySQL and PHP
- error checking and testing of code, emails and web pages before go live
- developing and interfacing to a wide range of external systems including OSCommerce, X-CART, and payment gateways including SagePay and PayPal
- manipulating data for import and export to and from internal and 3rd party systems
- updating of non-content manageable information on company and partner websites
- bulk updating of content and product data on Spark Etail e-commerce platform and developing tools to enhance process
- supporting staff and user access to Spark Etail and partner websites

#### **Other Tasks**

- working with the Managing Director to develop internal processes and systems in line with the business' evolving needs
- carry out other duties which may or may not be related to the job, as reasonably requested by management.

You will also be expected to co-ordinate your work within the Spark Etail team and sometimes directly with partners.

#### **PERSON SPECIFICATION**

##### **Qualifications and Experience**

###### **Essential**

- degree or equivalent qualification in relevant technical discipline
- at least 2 years experience of commercial web development or managing web projects
- practical experience of programming in two or more of the following: PHP, SQL, Javascript, or HTML
- experience of working in a project team environment

**Desirable**

- experience of project managing e-commerce projects
- experience of working with Open Source systems and software
- experience of Linux server system management

**Personal Qualities**

- An ability to 'make things happen'
- Able to cope with change and stressful situations
- Sympathy with the Spark Etail mission and goals

**Application details** Please email your CV and any questions to [andy@sparketail.com](mailto:andy@sparketail.com).  
Strictly no agencies.
